

## Research Areas under National Consortium

### National Consortium for Ph.D. in Nursing

S.No.	Title of the Research Topic
1.	Development of nursing Standards in the care of children with central nervous system infections
2.	A cross sectional study to assess the effect of music therapy on anxiety, pain, physiological variables and subjective well being of patients subjected to selected major surgery in Selected Hospitals at Coimbatore, Tamil Nadu
3.	Role of nurse therapist in educating preventive care and maintenance of health of individuals suffering from Type II Diabetes Mellitus at Selected Hospitals, Tumkur
4.	Health empowerment of premenopausal women toward prevention of breast cancer, cervical cancer, coronary heart disease and Type II Diabetes Mellitus
5.	A study to assess the beliefs and practice of women related to maternal and new born care in selected areas of rural Bangalore.
6.	Supply and Demand of Nursing manpower in Kerala upto 2030.
7.	Effectiveness of planned health education on breast feeding practices among postnatal mothers in selected rural areas of Dakshina Kannada Dist, Karnataka.
8.	Effectiveness of three teaching strategies on achievement, performance, achievement motivation, learning styles and attitude towards learning experience of B.Sc Nursing, students regarding postnatal management.
9.	A study on the effect of specific nursing protocol on the clinical outcome of patients with acute stroke
10.	To study the relationship between women's health status and domestic violence against women and identify the competencies of Nursing personnel in management of health issues related to domestic violence with a view to develop a framework for their training
11.	Traditional beliefs and practices regarding newborn care, care seeking behavior of families, infrastructure available and knowledge of health care providers, for the care of sick neonates in states with high and low Neonatal Mortality Rates
12.	Development and Testing of Competency Based Performance Assessment Approach in the Evaluation of Core Competencies of Nursing Students
13.	A comparative study of impact of nurse-patient ratio on nurses and patients' satisfaction with the nursing care in selected medical wards of a selected hospital with a view to recommend an optimum nursing manpower plan

<b>S.No.</b>	<b>Title of the Research Topic</b>
14.	Impact of leadership development package on leadership competencies of graduate nursing students and head nurses.
15.	A study to evaluate the effectiveness of Nursing Interventions in relation to Pulmonary Rehabilitation on Knowledge attitude, pulmonary functional measures, exercise capacity and Health related quality of life of patients with COPD
16 .	Effectiveness of Holistic Multi Disciplinary Approach in Nursing care for Selected Problems in Chronically ill Geriatric patients
17 .	A study to develop program on Nursing information system (NIS) for Computer Generated Nursing Care Plan in the selected areas of an Hospital, Bangalore
18.	Randomized Control Trial of Standard Catheter Care Protocol (SCCP) for prevention of Catheter Associated Urinary Tract Infection (CAUTI) among patients with indwelling catheter in Intensive Care Units
19.	An exploratory study to assess the existing knowledge and practices on Midwifery and Newborn care among G.N.M and B.Sc. Graduates in order to develop a teaching module for skilled birth attendance in selected rural hospitals in selected district Tamil Nadu
20.	An Experimental Study to Evaluate the Effectiveness of Instructional Booklet on the Knowledge, Attitude, Self-Concept, Self-Body Image, Quality of Life, Problem Faced, and Coping Strategies Adopted by Colostomy Patients in Selected Hospitals of Delhi
21.	Effectiveness of simulated role modeling, as a clinical teaching method on caring behaviour of B.Sc Nursing students of Kerala State
22 .	A study to evaluate the role performance of Accredited Social Health Activists-(ASHAS') and perceived satisfaction of ASHAS: ANM, and Beneficiaries in Delhi State
23.	An evaluative study of the primary health care services provided by health centers in community settings in Kerala state
24.	Effectiveness of validation therapy on mild cognitive impairment and quality of life of elderly
25.	Effect of Nutritional Education on self-care related to nutritional problems of patients receiving chemotherapy in selected hospitals of Trivandrum
26.	A study to develop and evaluate the effectiveness of training module on competencies of nurses working in selected occupational health care settings in Karnataka
27.	Development and evaluation of effectiveness of pre-hemodialysis preparatory programme based on identified stressors on anxiety, depression, coping strategies and compliance to therapeutic regime among chronic renal failure patients in selected hospitals of Bangalore
28.	A study to evaluate the effectiveness of Comprehensive Nursing Intervention Programme (CNIP) on quality of life of clients with Alzheimer's disease and competency of care givers, in a selected community setting in Kerala

S.No.	Title of the Research Topic
29.	Development of standards of nursing practice for Community Health Nurses in a primary health Centre
30.	A study to evaluate the effectiveness of family intervention package on perceived burden, coping ability and family functioning of caregivers and level of functioning of patients with chronic schizophrenia in selected hospitals in Trivandrum
31.	A study to evaluate the effectiveness of Comprehensive Nursing Intervention on the Physical and Psychosocial Outcome of patients with Coronary Heart Disease of a selected hospital in Mangalore.
32.	A study to evaluate the effectiveness of Preterm Care Programme on knowledge, practice and anxiety of mothers of preterm babies and preterm babies outcomes in a selected hospital of Kolar
33.	An experimental study to evaluate the effect of guided imagery in terms of pain, sleep quality, and stress among the terminally ill cancer patients admitted in selected Institute of Oncology in Trichy District of Tamil Nadu
34.	A study to develop a Nursing protocol based on factors related to occurrence of Intravenous Therapy complications and evaluate its effectiveness on prevention of Intravenous complications among children in selected hospital of Bangalore
35.	A study to evaluate the effectiveness of a specific Nursing intervention package on quality of life among the patients undergoing hemodialysis in a selected hospital, Bangalore
36.	A study to assess the need for training of nurses regarding management of Tuberculosis patients receiving DOTS and DOTS Plus under Revised National Tuberculosis Control Programme in selected hospitals and outreach facilities in Delhi state
37.	An exploratory study to identify the determinants of health care services utilization and competencies of nursing personnel in dealing with under five children at specified levels of health care in terms of IMNCI guidelines
38.	A study to determine factors contributing to overweight and evaluate the effectiveness of a school based multicomponent intervention program on selected health related behavior patterns and Body Mass Index among overweight children between 10 - 18 years age group in Kerala state
39.	An experimental study to evaluate the effectiveness of preoperative teaching protocol on postoperative outcome among women who undergo hysterectomy in selected hospitals at Salem District, Tamil Nadu.
40.	A study to evaluate the effectiveness of Hands on Skill Training Programme regarding management of specific childhood illnesses on the competencies of Female Health Workers in selected Primary Health Centres of Salem district, Tamil Nadu.
41.	Effectiveness of nursing intervention package on the attention, scholastic competence, and behavior of children with ADHD in selected schools of Kerala

S.No.	Title of the Research Topic
42.	Effectiveness of parenting skills empowerment programme on family well being among the parents of a selected panchayat in Kannur District, Kerala State
43.	A study to evaluate the effectiveness of a training programme on knowledge, attitude and practices of adolescents related to HIV/AIDS in selected schools of Delhi
44.	Effectiveness of a training programme on knowledge, attitude and practices of nurses working in acute psychiatric care settings in selected hospitals of Delhi
45.	A study to evaluate the effectiveness of nursing process approach on quality of nursing care maternal and foetal outcome and women's satisfaction with nursing care received in maternity units of a selected hospital Malappuram district, Kerala
46.	Effectiveness of antenatal health counseling on pregnancy outcome of mothers with HIV in selected hospital of Coimbatore, Tamil Nadu
47.	An experimental study to evaluate the effectiveness of specific individualized interventions on alcohol users in selected community of Jalandhar, Punjab
48.	A study to develop structured guidelines for school teachers to identify and manage the selected common behavioural problems among school children and evaluate its effectiveness on scholastic performance and class room behaviour in selected government schools of district patiala, Punjab
49.	Effectiveness of a comprehensive nursing intervention package on perinatal outcome of women with gestational diabetes mellitus attending selected hospitals in Kerala
50.	An experimental study to evaluate effectiveness of selected nursing interventions on aggressive behavior of acute schizophrenic patients admitted in Mental Hospital, Amritsar, Punjab
51.	A study to determine the managerial and supervisory competencies of ward sisters with a view to develop and evaluate an in-service education programme in a selected hospital of Delhi.
52.	A study to determine the opinion of female health workers about their expected and performed role in delivering nursing care services and client's satisfaction with the nursing care services received in a community of selected Districts of Karnataka
53.	A descriptive study of work related violence encountered by nurses working in selected hospitals of Madhya Pradesh
54.	A study to develop and evaluate the effectiveness of a training module on critical thinking competencies of the final year Bsc. Nursing students of selected colleges of nursing.
55.	A study to evaluate the effectiveness of clinical nursing practice guidelines on patient outcome and knowledge, practice and satisfaction of nurses regarding nursing care of critically ill patients in the intensive care units of Christian Medical College, Vellore .
56.	Develop and assess the effectiveness of self care intervention guidelines on the knowledge, anxiety, compliance, quality of life and home care management of persons living with HIV on Anti Retroviral Therapy.

<b>S.No.</b>	<b>Title of the Research Topic</b>
57.	A study to assess the lived experience of patients with NIDDM & effectiveness of nurse directed intervention in terms of their quality of life and health promoting behaviors in selected hospitals of Bangalore district.
58.	A study to explore the end of the life care preferences and to evaluate the effectiveness of intervention practice on selected Psychosocial parameters among the terminally ill patients and their family members, admitted in selected settings in Tamil nadu.
59.	A study to evaluate the effectiveness of hypnobirthing on labor outcome among antenatal mothers in selected hospitals, Puducherry.
60.	A study to evaluate the effectiveness of nursing interventions on bio-psycho-social profile of children with enuresis and their mothers in selected semi-urban community Bangalore.
61.	A study to evaluate the effectiveness of induction training programme on reality shock, perceived work empowerment and level of performance of newly recruited nurses working in selected hospitals of Coimbatore.
62.	A study to evaluate the effectiveness of nursing interventions on knowledge, compliance with strategies to control PIH and perinatal outcome of pregnant women with pregnancy induced hypertension in selected maternity hospitals, Tirupathi
63.	A study to evaluate the effectiveness of proactive integrated approach on self management techniques of patients with COPD (Chronic obstructive pulmonary disease) attending OPD in selected hospitals, Dharmapuri.
64.	A study to evaluate the effectiveness of selected nursing interventions on quality of life, knowledge, and practices and frequency of acute attacks of Asthma among patient with Bronchial Asthma in selected hospitals of Hyderabad .
65.	A study to evaluate the effectiveness of the training programme on knowledge, attitude and practices of BLS (Basic Life Support) among 10+2 school students of Punjab.
66.	Effects of selected Nursing interventions on quality of sleep and quality of life of older adults with sleep pattern disturbances.
67.	A study to develop and evaluate the efficacy of palliative nursing care standards for oncology clients on the patient outcomes, satisfaction and knowledge and practice of nurses working in Apollo specialty hospital, Chennai.
68.	A study to evaluate the effectiveness of Nurse directed interventions in the management of sciatica during pregnancy.
69.	Tracking of Blood Pressure and the effectiveness of a multi component intervention programme on selected health related behaviour pattern and physical and physiologic parameters of children in selected schools of Kerala.
70.	To develop and evaluate the effectiveness of assertiveness training module on Assertive behaviour, self esteem, interpersonal communication and stress among nurses working in selected hospitals of Punjab.

<b>S.No.</b>	<b>Title of the Research Topic</b>
71.	A study to determine the prevalence of child sexual abuse and assess knowledge and attitude of parents and teachers regarding child sexual abuse .
72.	A study to evaluate the effectiveness of holistic nursing care intervention on knowledge, attitude and practices of elderly patients with insulin dependent diabetes mellitus (IDDM) in selected hospitals, Kolar, Karnataka.
73.	A study to determine effectiveness of nutritional intervention for Anemia on maternal and fetal outcome among antenatal women in selected villages in Thrichy.
74.	"Effectiveness of a self structured teaching program on knowledge and practice regarding prevention of type 2 Diabetes Mellitus among adolescents in selected school of Kerala
75.	A study to develop and evaluate the effectiveness of a school based educational programme regarding HPV Vaccine (Human Papilloma Virus) on knowledge, attitude and vaccination status of adolescent school girls (13-18 years) belonging to selected schools of Ludhiana, Punjab
76.	A study to develop and evaluate the effectiveness of nursing intervention guidelines on essential newborn care (ENC) in terms of neonatal outcome and knowledge and practice of nursing personnel and mothers of neonates in selected settings, Tamilnadu .
77.	An experimental study to evaluate the effectiveness of holistic nursing approach on the knowledge, quality of life, coping strategies and compliance to therapeutic regimen among patients with myelosuppression.
78.	Nurses' Perception of the needs and stress of parents of children in ICU and the effect of specific nursing intervention protocol on the parents' perception of the adequacy of support received by them.
79.	A study to develop and evaluate the structured teaching programme for parents on the care of children with Thalassemia in terms of parental knowledge, attitude, coping strategy and quality of life of children with Thalassemia in selected hospitals Northern region of india.
80.	A study to evaluate the impact of positive reminiscence on quality of life and self esteem among elderly residing in selected old age homes in Delhi.
81.	A comparative study to evaluate the effectiveness of HIV/AIDS counseling under PPTCT programme on knowledge attitude and sex behaviour & practices of pregnant women in selected hospitals of Delhi.
82.	A study to assess the knowledge and practices on use of partograph among nurses working in maternity units of selected hospital.
83.	A study to evaluate the effects of training program on knowledge, beliefs and practices related to breast self examination among college students of selected colleges of Delhi.

<b>S.No.</b>	<b>Title of the Research Topic</b>
84.	A Study to evaluate the effectiveness of dietary intervention on Precancerous Cervical Lesion among women in selected rural area of Bangalore .
85.	A study to develop and evaluate the effectiveness of guidelines on knowledge and attitude of trainee school teachers regarding learning disabilities of children in selected training institutions of District Ganjam, Orissa.
86.	Effectiveness of Self Instructional module regarding stress management strategies on the perceived stress, knowledge, attitude and practices of adolescent girls in selected school of Punjab.
87.	A study to evaluate the effectiveness of Meta cognitive Intervention in pediatric Nursing course on Academic Performance and critical thinking skills among B.Sc. Nursing third year students of selected govt. Colleges of Nursing, Kerala.
88.	Standardization of Psychiatric Nursing Documentation & Assessment of factors influencing user acceptance .
89.	A Study To Evaluate The Knowledge, Attitude And Learning Needs Of Parents of Spastic Children With A View To Develop Care Guidelines In Selected Spastic Homes Of Northern States Of India
90.	Effect of Child to mother approach of imparting health information on the knowledge and health promoting behaviours of mothers regarding environmental health among selected villages of Kottayam district, Kerala
91.	A study to determine the effectiveness of Basic life support training on life saving skills among public in selected areas of Kerala state .
92.	Evaluate the effectiveness of nurse initiated education on knowledge, health belief attitudes, self efficacy and biochemical variables of osteoporosis among women in Christian Fellowship Community Health Centre, Ambilikkai, Tamilnadu.
93.	A study to evaluate the effectiveness of a structured intervention programme on knowledge, attitude and practices regarding prevention of coronary artery disease among adolescents in selected schools of Punjab
94.	A study to assess the Effectiveness of Stress Management Programme on the Level of Stress Anxiety and Coping among Undergraduate Nursing Students of Selected Regional Centers of School of Medical Education at Kerala
95.	A Study to Assess the Effectiveness of Behavioral Therapy on Attention Deficit Hyperactivity Disorder among Children at Selected Rehabilitation Centers in Malappuram District
96.	Effectiveness of life style modification programme on selected modifiable risk factors of coronary heart disease among middle aged people in a selected urban community in Kerala.

<b>S.No.</b>	<b>Title of the Research Topic</b>
97.	Effectiveness of a multimedia educational programme for children and their parents regarding preparation for hospitalization on anxiety, pain perception and selected post operative complications among children undergoing elective abdominal surgery in selected hospitals of Kerala.
98.	A longitudinal study to assess the cognitive and behavioral changes in patients with intracranial tumors and their impact on chosen psychological parameters of the family caregivers
99.	A randomized controlled trial to evaluate the effectiveness of an Adolescence Health Education Programme (AHEP) on health among adolescents studying in a selected school at Bangalore, Karnataka, India.
100.	A Study to describe the post surgical outcomes and quality of life of Renal Transplant Recipients at selected hospitals, Kerala
101.	An experimental study to evaluate the effectiveness of an interventional package on selected physiological and psychological parameters among children with HIV infection in selected settings, Chennai
102.	A study to develop & evaluate the effectiveness of a structured intervention programme on knowledge & attitude of school teachers with respect to epilepsy in selected schools of north India.
103.	Effectiveness of structured teaching programme regarding adolescent reproductive health on knowledge and attitude among adolescents in selected rural schools at Thrissur Districts, Kerala.
104.	A study to assess the effectiveness of objective structured practical examinations (OSPE) Versus Traditional Practical Examination in Psychiatric Nursing on nursing students performance and satisfaction in selected colleges of nursing of Tamil Nadu.
105.	Effectiveness of selected Nursing interventions on Bio-physiological and Psychological parameters of clients with type-II Diabetics Mellitus in selected health care setting of Puducherry.
106.	A Study to Evaluate the Effectiveness of a Structured Intervention Programme on Knowledge, Attitude and Practices on Prevention of Cancer Cervix among Adolescent Girls in selected schools of Punjab
107.	A Study to explore registered nurses' experiences of ethical and human rights issues in nursing practice in selected hospitals of Punjab and Chandigarh, development of an in-service education program
108.	Development and evaluation of Nursing Practice standards on infection control measures in Neonatal Intensive Care Units of selected hospitals in Kerala.
109.	A study to evaluate the effectiveness of a multi-component instructional program on the study skills and academic performance of undergraduate nursing students of selected educational institutions of Karnataka state

<b>S.No.</b>	<b>Title of the Research Topic</b>
110.	A study to identify the Psychological distress and coping strategies adopted by couples undergoing infertility treatment in a selected hospitals at Kozhikode, Kerala.
111.	A longitudinal study to assess outcome parameters and high risk factors of relapse among currently abstinent patients with substance use disorders with and without co-morbid psychiatric illness
112.	A Comparative Analysis of working conditions of nurses in public and Private Sector Hospitals of Delhi with a view to identify factors contributing to retention of nurses.
113.	A study to explore lived experience of sleep disturbances and fatigue among patients undergoing hemodialysis and the effect of cognitive behavior therapy on their sleep, fatigue and quality of life in selected hospitals, Kerala.
114.	A descriptive co-relational study to assess professional socialization and its determinant factors among B.Sc(N) students of Kannur University
115.	A study to assess effectiveness of teaching programme on level of knowledge and attitude of family caregivers towards mentally challenged Children's in selected Institutions of Bangalore
116.	A study to determine the prevalence of Protein Energy Malnutrition and evaluate the effectiveness of structured nursing intervention on knowledge and practices of mothers in managing PEM among under-five children in selected coastal villages of Kerala.
117.	A study to evaluate effectiveness of structured training Program regarding prevention of female infanticide on knowledge and attitude of nursing personnel and ASHAs in selected districts of Haryana
118.	A study to assess effectiveness of interventional Package on menopausal related problems and quality of life among premenopausal women in Kerala.
119.	A study to evaluate the effect of educational programme on burden and quality of life of caregivers of stroke patients admitted in selected hospitals of Malappuram district in Kerala
120.	A study to evaluate effectiveness of nursing intervention package on knowledge, selected skills and care-burden of caregivers of children with cerebral palsy in selected rehabilitation centers of Ernakulum District, Kerala
121.	Effectiveness Of Adolescent Reproductive Health Education Programme, Knowledge And Attitude Of School Teachers and School Going Adolescent Girls In Kerala
122.	A study to evaluate Effectiveness of Video -assisted Teaching Programme regarding Screening of Mental Illnesses on Knowledge, Attitude and perceived benefits among Village Health Nurses (VHNs)/ANMs in Coimbatore District of Tamil Nadu.
123.	A descriptive study to determine the prevalence of tobacco use and its correlation among school going adolescents in Kottayam, Kerala

S.No.	Title of the Research Topic
124.	Impact of Specific Nursing Strategies on treatment adherence and knowledge of family members about Mental Illness in selected District of Assam
125.	A study to evaluate effectiveness of lifestyle modification programme on knowledge, attitude and life-style practices, related to selected lifestyle diseases among school going adolescents in Ernakulum district, Kerala.
126.	A study to evaluate effectiveness of health promotion program on knowledge, attitude, life style practices and bio-physiological variables among hypertensive patients from Cholanaganahalli, Bangalore
127.	Impact of Birth Preparedness Programme on Maternal and Foetal Outcomes among <u>PrimiGravidae women during Labour at Selected Hospital Hyderabad, Andhra Pradesh.</u>
128.	A longitudinal study to evaluate effective of assertiveness training on Assertiveness and Self-esteem of B.Sc. nursing students of selected Colleges of Nursing in Calicut.
129.	A study to evaluate Effectiveness of Nursing Intervention on select outcome variables of patients having Rheumatic Heart Disease in a selected Hospital of Delhi.
130.	A Study to Evaluate Effectiveness of 'Training Programme on Aggression Management' for Family Caregivers of Mentally Ill Patients on their Knowledge, Attitude and Practice in Managing Aggression.
131.	A Case study of facilities available and practices regarding biomedical waste management among staff of community health Institutions in a selected District of Haryana, India.
132.	A randomized control study to evaluate effectiveness of psycho-social-behavioral interventions on resilience and its correlates in children from lesser privileged background
133.	A study to determine the prevalence of sickle cell crisis and evaluate effectiveness of teaching programme regarding prevention of sickle cell crisis on knowledge and QOL of tribal children of Waynad district, Kerala.
134.	A study to evaluate Effectiveness of positive family interactions module on expressed emotion of family caregivers of patients with schizophrenia: a prospective study in a selected psychiatric inpatient facility
135.	A study to evaluate effectiveness of parent-child interaction training on physical and behavioral development of children with common developmental disorders.
136.	A study to evaluate effect of structured educational programme on knowledge, attitude and glycemic control among type II diabetes mellitus patients in selected hospitals in Trivandrum
137.	A study to determine knowledge and practices of ANMs related to maternal and child health care in Karnataka .
138.	A Study to assess level and factors influencing professionalism among nursing teachers as perceived by them and their peer reviews, in selected nursing institutes of north Indian states

S.No.	Title of the Research Topic
139.	A study to evaluate effectiveness of training programme regarding Developmental Supportive Care of Preterm Neonates on Knowledge and Practices of Nurses Working in NICU in Selected Hospitals of Uttar Pradesh.
140.	A study to evaluate effectiveness of nursing intervention on stress, anxiety, and coping strategies among mothers of young children newly diagnosed with Acute Lymphoblastic Leukemia in regional cancer centre, Trivandrum.
141.	A study to explore the impact of imprisoned mothers on children in a selected prison of Delhi
142.	A study to evaluate effectiveness of nursing intervention on knowledge, attitude and practices of caregivers and quality of life of patients with paraplegia in selected hospitals of Kerala.
143.	An Experimental Study to Assess the Efficacy of Mental Health First Aid Training Programme on Mental Health Literacy, Social Distance, Helping Behaviour, Perceived Confidence to Help and Mental Well-being of High School Teachers in Puducherry.
144.	A Study to Assess the Psychosocial Hazard Associated with Nursing Service and its Impact on Quality of nursing care, Health and Safety of Nurses and Patients.
145.	A study to develop and evaluate the effectiveness of Case Management Strategy on knowledge, attitude and compliance towards tuberculosis treatment among pulmonary tuberculosis patients under DOTS therapy in selected government and private hospitals, Kochi, Kerala.
146.	A study to assess the effectiveness of selected nursing intervention on activities of daily living, self esteem, depression and quality of life among elders with chronic illness at selected old age homes in Bangalore, Karnataka
147.	Effectiveness of an empowerment program on health risk behaviour and quality of life among HIV infected adolescents availing services of State AIDS Control Society (SACS) in Kerala
148.	The effectiveness of anodyne therapy in reducing neuropathic symptoms and in improving blood supply to foot among patients with diabetic peripheral Neuropathy in selected hospitals in South India
149.	Development of Nursing standards for Prevention of cervical Cancer among young females of Punjab.
150.	A study to develop and evaluate the effect of emotional skills training programme on emotional intelligence and academic performance of B Sc nursing students in selected colleges of Nursing in Kozhikode district.
151.	Effectiveness of an adolescent empowerment program on psychosocial wellbeing among adolescents studying in selected schools of Kottayam district.

<b>S.No.</b>	<b>Title of the Research Topic</b>
152.	A study to develop and assess the effect of a new Supplementary Feeding Programme on nutritional status of preschoolers with Nutritional problems in a selected district of Kerala
153.	A study to assess the common behavioral problems in toddlers and develop a parental guideline to prevent and manage behavioral problems among toddlers in selected communities of Kannur district, Kerala
154.	A study to find out the relationship between the style of parenting of parents of adolescents on a range of adolescent outcomes such as personality, level of stress, hopelessness and suicidal ideation of adolescents in a selected district of Kerala
155.	A cross sectional survey on assessment of attitude of registered nurses and out-going nursing students towards care of elderly and to develop attitude change strategy regarding elderly care for nursing personnel in selected medical colleges and hospitals, Punjab
156.	A 3-group randomized control trial on effect of educational interventions on occurrence, severity of urinary incontinence and quality of life among adult women residing in selected rural areas of Chandigarh (U.T)
157.	Development of 'Training Module' for home care management of disabled persons based on assessment of disability, activity limitation and participation restriction, related knowledge, attitude, practices and nursing care needs among residents of selected rural community, Chandigarh
158.	Effect of video assisted teaching programme on knowledge and practice of breast feeding support skills among nurses working in maternity ward at selected hospitals, Coimbatore
159.	A Study to evaluate the effectiveness of nursing intervention package on the functional status and quality of life of elderly residing at selected urban and rural community of Kottayam district, Kerala
160.	A study to assess the utilization of secondary prevention strategies in people with established Coronary Heart Disease in a rural community in Kerala
161.	A longitudinal study to assess the functional deficits in patients after traumatic brain injury and its impact on quality of life with a view to develop a home based neuro-rehabilitation programme.
162.	Effectiveness of Automated Voice Call System (AVCS) on Tuberculosis Treatment Outcomes among Patients with Tuberculosis
163.	A study to assess the effectiveness of family based nursing intervention on work behaviour of clients with Bipolar Affective Disorders, at JIPMER Hospital, Puducherry
164.	A study to evaluate the impact of de-addiction programme for alcoholics over the burden, social adjustment and marital quality of the spouses of alcohol dependent individuals.

S.No.	Title of the Research Topic
165.	A study to assess effectiveness of parent preparedness programme on father knowledge and involvement, and selected outcome of childbirth among parents of first born child
166.	A study to assess the prevalence and risk factors of common mental disorders among the patients attending the medicine outpatient department and to develop a psychiatric reference protocol, at JIPMER hospital.
167.	A study to compare the pregnancy outcomes of centering pregnancy versus traditional prenatal care.
168.	Describe personal effectiveness and Nursing practice among the faculty of selected college of Nursing
169.	A study to evaluate the effectiveness of educational Intervention on management of medical emergencies in school children in terms of knowledge, practice, attitude and acceptability of school teachers in selected Government schools of rural and urban areas of kancheepuram district in Tamil Nadu
170.	A study to assess the quality of life, life style and support system of women undergoing infertility treatment, with a view to develop a Psychosocial Interventional programme
171.	A study to determine the effectiveness of Problem Based Learning on Clinical knowledge and Critical thinking ability of Bacculaureate Nursing Students in selected Nursing Colleges at Coimbatore District
172.	Analyze the need, barriers, facilitators and competency of nurses for nurse practitioner's role, in different health care settings of Kerala
173.	A Study to develop a risk assessment tool for selected cancers among women with a view to develop a preventive health education programme in hospitals of Delhi
174.	An experimental study to evaluate the effect of various therapies on the outcomes of post coronary angioplasty (PTCA) patients in a selected hospital of Delhi
175.	An experimental study to assess the effect of nature-based sounds' intervention on agitation, anxiety, and physiological stress response in patients under mechanical ventilator support at Dr. Prem Hospital, Panipat
176.	A Quasi Experimental Study to Evaluate the Effectiveness of Reiki Therapy on Health and Quality of Life Among the HIV Patients of Selected Hospitals at Gujarat and Silvassa(UT).
177.	Efficacy Of Life Skills Training Package (Lstp) Among Vulnerable Children In Selected Orphanages At Kanyakumari District, Tamilnadu
178.	Development and evaluation of an instrument to assess the quality of pediatric nursing care for hospitalized children in selected hospitals, Bangalore
179.	A longitudinal study to assess the infant child care practices among mothers with infants in a selected tribal group in Malappuram district, conduct need based awareness program and to assess its effectiveness

S.No.	Title of the Research Topic
180.	A study to assess the knowledge of 'Nursing Informatics' among undergraduate nursing students and practicing nursing professionals from selected institutions of Delhi and NCR, with a view to identify training needs of nursing professionals for learning nursing informatics.
181.	A Study To Assess The Effectiveness Of Selected Nursing Interventional Package On Social Interaction Among Autistic Children And Quality Of Life Of Care Givers In Selected Autism centers In Kerala
182.	A Study to assess Clinical outcome and family members perception on coma patient's response to multiple sensory Stimulation programme
183.	A comparative study to evaluate the effectiveness of Glycine max fortified mixture versus Hyderabad mixture on health status of under five children with malnutrition at Rural areas of selected district in North Karnataka
184.	Effectiveness of Acceptance & Commitment Therapy (ACT) on Treatment Outcomes among Patients with depression
185.	A randomized control study to evaluate the effectiveness package on partner support for spouses of high risk antenatal women on postpartum mood disorders, perceived partner support and newborn bonding in various maternity hospitals
186.	A Study To Explore The Prevalence Of Sexual Abuse, Its Predictors And The Efficacy Of A School Based Sexual Abuse Prevention Programme On Selected Parameters of Family Life Education Among Adolescent girls In Selected Schools Of Trivandrum District
187.	A study to identify the psychosocial problems and coping strategies on early onset of puberty among pre adolescent girls with a view to develop and evaluate an interventional strategy in selected orphanages in Kerala
188.	A qualitative study to explore the lived experiences of PLHIV at selected ART Centre's in Delhi.
189.	Effect of Intensive mental health programme for School children with emotional disturbance
190.	A study to develop and evaluate training programme for self care on self efficacy, compliance and QOL among patients with rheumatoid arthritis in selected hospitals Bangalore
191.	An experimental study to test Kathrine Kolcaba theory of comfort by evaluating the effectiveness of integrative comfort care interventions on discomfort experienced by children (age 5-10 years) during post operative period at selected hospitals of Punjab
192.	A study to evaluate the effectiveness of interventional package on enhancement of emotional relation, interpersonal skills and job satisfaction among staff nurses

S.No.	Title of the Research Topic
193.	A descriptive study to assess the awareness, determinants of utilization, and perception of public health nurses about their expected and performed role in delivering national program for prevention and control of cancer and diabetes through NPCDCS in a view to develop a training module
194.	A Study to assess the prevalence of worm infestation among primary school of children and effect of an intervention package on prevention of re-infection of worm infestation in selected primary schools of Mehsana district.
195.	A study to assess the parental knowledge, parental uncertainty, quality of life of children with epilepsy with a view to develop and evaluate a parental training programme in selected hospitals of Kerala
196.	A study to assess the effectiveness of focused MSP... Intervention on care giver's role, strain and functional outcome and self-care behavior of patients undergoing head and neck cancer surgeries in a selected hospitals
197.	Effectiveness of a structured intervention programme on emotional and behavioral problems, resilience and recovery among children of alcoholics in selected districts at Kerala
198.	Effectiveness of structure MSP intervention on perceived stress, self-efficacy coping strategies and quality of life among adults residing at selected displaced community in Chennai, Tamil Nadu
199.	A study to assess the effectiveness of risk reduction strategies on the knowledge perception and risk status of selected high-risk behaviours among adolescents in selected schools at Coimbatore district
200.	A study to assess the effect of life skills development program on selected life skills among B.Sc. Nursing first year students of selected nursing colleges at Tamilnadu.
201.	A study to assess the knowledge, utilization, level of satisfaction of utilization and barriers of non-utilization regarding Integrated Child Development Services (ICDS) among women and ascertain impact of ICDS among under-five children of Ernakulam district, Kerala.
202.	A Study of Lived experience of adult female cancer survivors to identify common protective resilience factors that enables them to cope with cancer experience and ascertain the potential barriers to resilience
203.	A study to assess the effect of a multi component intervention programme on knowledge & selected skills of caregivers & functional improvement and psychological wellbeing of patients admitted with neurogenic dysphagia in selected hospitals, Kerala
204.	A study to evaluate the effectiveness of home based enuresis intervention in reducing the Nocturnal enuresis and the bio psycho social problems associated with primary nocturnal enuresis among children in selected communities in Bangalore.

S.No.	Title of the Research Topic
205.	A study to evaluate the effectiveness of a nurse initiated psycho educational intervention package on fatigue, self esteem, spouse relations and quality of life of survivors with breast cancer in selected tertiary care hospital in Kerala
206.	A study to evaluate the effectiveness of structured motivational programme regarding prevention of cervical cancer in terms of knowledge and attitude towards screening for cervical cancer & treatment among women of selected rural community of Uttar Pradesh.
