Brochure for Professional

As a proud nurse, I have witnessed firsthand the vital role we play in delivering exceptional care to our patients. We are a constant presence by their side, dedicated to ensuring they receive the highest quality of care. As healthcare professionals, it's essential that we stay current, especially as we enter the digital age, where technology is reshaping every facet of our lives—including healthcare.

This is a pivotal moment for us to elevate the skills of Indian nurses, empowering them to be on par with the world's best in digital health. For the first time, nurses have the opportunity to participate in a unique professional development program that integrates healthcare, technology, and management training. This program, a joint certification by the Indian Nursing Council (INC), the Academy of Digital Health Sciences, and IIM Raipur, offers world-class credentials, including 50 CNE Hours and 10 CNE Credits.

Designed specifically for nurses who are eager to embrace the future of patient care, this program creates new professional opportunities and enables career diversification. We're offering it at an accessible rate of INR 3000 all inclusive to ensure that each nurse can maximize the value of their investment in both time and money. And this is just the beginning—more courses will follow. This is an annual certification, and we encourage you to keep your skills updated year after year.

Our commitment to caring for others is unmatched and now is the time to amplify our impact with advanced digital skills. Through this course, we can develop digital health expertise that will enhance our professional capabilities and contribute to the overall efficiency, effectiveness, and quality of healthcare.

Enroll today, and let's lead the transformation of healthcare delivery together.

Wishing you all the best on this exciting journey!

Frequently Asked Questions

1. Why should I take this program?

The landscape of healthcare is changing and Digital Health is integrating across the value chain and across the continuum of care. So, every clinician including nurses need to be updated on the developments in this field. Right from the primary care to quaternary care, there are massive changes which have already arrived in India and are at scale. So this annual Professional Development Program will give you an update of what has happened in this year and what we could be looking forward to in the profession of Nursing. This will help you in seizing the new career opportunities and even specialize in areas like digital consultation or digital transformation in Nursing.

2. Is there an EMI option available?

Yes, EMI options are available for this program, allowing you to pay INR 146.89 per month for 24 months through various bank cards.

3.How do I avail EMI option?

You can visit the payment page and select EMI option and pay it as per the bank and cards policies.

4. What is the tenure of this program?

The program is for 6 months.

5. Will there be online classes?

Yes, this is a self-paced, pre recorded, fully online program accessible via mobile, web, or computer. You can watch lectures, take quizzes, and learn at your own pace.

6. Will you provide any job assistance?

For any Job opportunity, you may enroll Health Parliament's job section. Updates on available opportunities in Digital Health will be posted in the Career - Jobs & Internships Professional Discussion Forum.

7. Will there be any offline sessions?

This is a Digital program which will give you an overview of the constituents of Digital Health and there will be no practical or offline sessions because it is meant for working professionals.

Frequently Asked Questions

8. Is this program completely technical? Do I need to learn coding for this program?

The faculty of the program are the leaders in this domain from across the world and India, and the programs are created with an intent that people with non-technical backgrounds and working professionals with no knowledge of data, coding or technology can understand it. So, no technical knowledge is needed.

9. Is this program only for Indian nurses?

Yes, this program is specifically designed for Indian Nurses.

10. Is this program recognized within India?

Yes, the program is accredited from Indian Nursing Council and is recognized all over India with 50 CNE hours and 10 CNE credits.

11. What are the eligibility criteria for enrolling in this program?

The program is open to Nursing professionals and Nursing students.

12. What makes this program unique?

This is the only program in the world for Nursing which captures healthcare, management and technology.

13. What type of certification will I receive upon completion?

On completion the Academy of Digital Health Sciences, IIM Raipur and Indian Nursing Council will award completion certificate of Professional Development Program in Digital Health for Nurses.

14. Can I get a refund if I need to withdraw from the program midway?

There is no refund policy, but your fees may be adjusted towards future programs.

15. What is the program fee?

The all-inclusive fee is INR 3000.

Frequently Asked Questions

16. Do I need to renew the certification?

Yes, as Digital Health continues to evolve, you may require to update every year and it will be an annual professional development program.

17. How much time I need to spend?

The program typically requires one to two hours per week, depending on your pace.

18. What's the maximum time to complete the program?

The program's duration is six months, but you have up to one year from enrollment to complete it.

19. Is there a passing marks?

Yes, a minimum score of 50% is required to pass.

20. What If I fail?

If you fail, you will have the option to retake the modules you did not complete successfully or receive a certificate of participation.

21. Are there any other specialized programs for Nursing and Digital Health?

Currently, this is the main program, but we will keep you informed of any future specialized programs.

22. Will I have lifetime access to program materials after completing the program?

You will get access to program materials until the completion of program.
