## NOTIFICATION

Admission criteria/ minimum requirement to be strictly followed by School/Colleges of Nursing while making admissions to various nursing programmes – regarding –

There are instances where the candidates are admitted to nursing programmes without verifying the minimum requirement in terms of qualification/ admission criteria laid down by the Indian Nursing Council for different nursing programmes resulting in deviation from the prescribed norms meant for the uniformity of nursing education. As a result, such qualified candidates may not be able to get reciprocal registration in other States and have to practice within the State where they have qualified.

In order to avoid this situation, the Schools/Colleges of nursing while admitting the candidates are required to adopt strict measures to assess and ensure that the minimum admission requirement is fulfilled in each case of admission.
